2017-2018

Summer Reading List

Math & Language

Learning Ally

Reading

I have downloaded the following books on Learning Ally for this summer's read. Please read at least 2 to 3 books over the summer. They all are very interesting and enjoyable books for 5th and 6th graders to read. This will keep reading skills up over the summer.

The Chocolate Touch

Island of the Blue Dolphins

The One & Only Ivan

The Phantom Tollbooth

The Witches

Inkheart

Language

I have included story starters and if you will pick at least 3 starters a week to write about, you will keep your writing skills up. Make sure you include a topic sentence, 3 sentences with details, and a concluding sentence. Proofread your work for punctuation, grammar, and spelling errors.

Math

IXL will be available to use over the summer. Please use this to continue keeping all your math skills up that we have learned over the school year. Go to Level G if you were in Green Math Book, Level H if you were in Red Math Book, and Level F if you were in the Orange Math Book.

Have a GREAT summer
